

Vitor Magalhães

Web development · Digital product · Applied AI

Manaus, Brazil · vitor@vitorfmagalhaes.dev · linkedin.com/in/vitorgrowth · github.com/Vitt2909 · vitorfmagalhaes.dev

PROFILE

High school student who loves to build. I develop web apps, prototypes and data projects, from researching the problem to the interface and the code. I led the startup Access Platform through Ocean Lab #10 pre-acceleration (Samsung Ocean · UEA) and have completed 20+ courses in product, data, AI, UX and communication.

EXPERIENCE

GVM Digital — Web development, product and sales support 2025 — present

- Building websites and applications for businesses, from defining the problem to delivery (React, Vite, technical SEO).
- Proposals, contracts and client follow-up.

Access Platform / Adapto — Founder

2023 — present · on hold

- Platform that helps teachers adapt activities for neurodivergent students.
- Ocean Lab #10 pre-acceleration (Samsung Ocean · UEA), Apr–Jun 2026: 3 months, 14 workshops, 42 hours.
- Deadlines and deliverables, research, documentation and team presentations.

Codeworks Lab — Centro de Educação Integral Christ Master — Organization support

2026 — present

- Organizing activities and materials and drafting institutional documents and invitations.

SELECTED PROJECTS

AeroMap — School startup team project: environmental monitoring PWA with classroom map, indicators, alerts and recommendations. Prototype with simulated data.

Next.js · TypeScript

Glyph — Open-source agent creature that lives on the macOS desktop. In development.

Swift

Nexus Churn Intelligence — ML pipeline for SaaS churn risk with an analysis and prediction dashboard. Synthetic data.

Python · scikit-learn · Streamlit

Full case studies at vitorfmagalhaes.dev (in Portuguese)

Meus Devedores — Customer, sales, installment and payment management for a jewelry sales business. Internal tool in daily use.

Next.js · TypeScript · PostgreSQL

Viktor Kernel — Local-first personal agent for macOS. In development.

Swift · SwiftUI · Ollama

TUVÁ — Brand identity, packaging and an interactive 3D web experience.

TypeScript · Three.js · GSAP
